

# DAN FRED P. CABLAS

## PROFILE

Hello, I'm Dan Fred Cablas, a laravel Developer and graduated at STI West Negros University. I started using PHP in 2017 during my Grade 12 research project, and transitioned to Laravel in my third year of college. During my internship at DevTeam Outsourcing Inc., an e-commerce development company, I worked on real-world projects and gained hands-on experience in full-stack development using the TALL Stack (TailwindCSS, Alpine.js, Laravel, Livewire). My internship also exposed me to an Agile development setup where we used tools like Trello to manage tasks and sprints. This experience gave me a solid understanding of project workflows and team collaboration in a professional environment.
